

EXPOSIÇÃO ITINERANTE DE JOIAS
TRAVELLING EXHIBITION OF JEWELLERY

NATURE IS THE JEWEL

O nosso Jardim

21 Maio a 4 Junho 2024
From 21st May till 4th June

A Natureza é a Joia. O mote para o desenvolvimento do projeto de intercâmbio Erasmus+ entre seis países, escolas parceiras - Bélgica, Espanha, França, Itália, Letónia e Portugal.

As 111 joias criadas e expostas representam diferentes interpretações, perspectivas, visões e possibilidades circunstanciadas à ideia de Natureza.

A natureza é preciosa!? É uma joia? A joia contém, integra, revela, evoca a natureza? Qual é a essência/natureza da joia?

As 32 joias portuguesas incorporam uma reflexão em torno da ideia de *Jardim* enquanto espaço natural/artificial, coletivo/pessoal, identitário e representativo da cultura, dos costumes, das tradições e das crenças. Sendo este, naturalmente, também um espaço de manifestação artística. As Joias representam os ideais, as vivências e o saber fazer dos 32 alunos da Ourivesaria da António Arroio.

Neste desafio comum, em intercâmbio escolar europeu, descobrimos diferentes realidades e dimensões humanas inerentes ao património natural e cultural nas suas múltiplas identidades.

The motto for the development of the Erasmus+ exchange project between six partner countries - Belgium, Spain, France, Italy, Latvia and Portugal.

The 111 pieces of jewellery created and exhibited represent different interpretations, perspectives, visions and possibilities surrounding the idea of nature.

Is nature precious? Is it a jewel? Does the jewel contain, integrate, reveal, evoke nature? What is the essence/nature of jewellery?

The 32 Portuguese jewellery pieces reflect on the idea of the garden as a natural/artificial, collective/personal space, an identity and representative of culture, customs, traditions and beliefs. Naturally, this is also a space for artistic expression. The jewels represent the ideals, experiences and know-how of the 32 António Arroio Goldsmiths students.

In this common challenge, in a European school exchange programme, we discovered different realities and human dimensions inherent in the natural and cultural heritage in its multiple identities.
